A comprehensive CRM system for companies.

comoveo CRM

What is Comoveo?

The Comoveo system is an easy-to-use CRM program that will facilitate the smooth operation of the company.

Create a database of your products.

Collect all customers in one place.

Thanks to this, you'll be able to quickly create transparent, personalized offers.

This will improve communication with the client and speed up the finalization of the contract.

The CRM system has the highest class security, it is fully compliant with the RODO requirements. We also provide daily back-up of data and encrypt data to protect against theft.

The application is available on every modern device.

Use the mechanism to personalize and send mass e-mails.

The Comoveo system will guide you from signing the contract, by completing the task to issuing the invoice, and arranging the entire process.

The calendar will remind you about tasks, meetings and everything you need to remember.
